

Perfect for: Oil Field, Heavy Equipment Services, and Industrial Manufacturing.

Protect your business from alcohol related accidents by having employees complete an 8-second alcohol detection test when they arrive for work.

**SOBRCHECK for
JOB-SITE SCREENING of ALCOHOL.**

OPERATIONAL BENEFITS

- 100% Compliance.
- Achieve 100% Pass Rate.
- Eliminate Alcohol-Based Turnover.
- Increase Productivity by Lowering Risk.

Tratek Monitoring Services of Canada, known for electronic monitoring devices that improve safety have now introduced high-quality alcohol detection equipment for Oil Field, Industrial Manufacturing, and Heavy Equipment Services.

- ✓ **Protect your business from alcohol related accidents by having the employees take an 8-second alcohol detection test when each employee is starting a work shift.**
- ✓ **When using the touch-based SOBRcheck desktop alcohol detector as a safety screening measure your business is efficiently supporting its substance abuse policy.**
- ✓ **SOBRcheck is a desk model alcohol detector that will verify the correct person is taking the test and the alcohol level of the individual in 8-seconds. This will be a big step in minimizing the risk of alcohol related accidents.**
- ✓ **Use of the SOBRcheck alcohol detector ensures alcohol-free shifts every day, improves your employee's health and wellness, solidifies a positive impact on productivity, and with the cost savings of constantly replacing employees it helps you hire and retain quality employees.**
- ✓ **With comprehensive product instructions, and TraTek's efficient customer service you'll be guided easily in using the SOBRsafe products.**

- **Easy, risk-free warranties.**
- **Affordability.**
- **Quick and easy installs.**
- **Risk reduction.**
- **Potential insurance reductions.**
- **Quality customer service with years of industry experience**
